SUMMARY

Full stack web developer with a strong computer science background. Trained at University of Minnesota boot camps and earned a certificate in full-stack web development. I am excited to bring my hands-on experience and enthusiasm for web development to a dynamic team where I can contribute to building innovative, user-focused applications.

TECHNICAL SKILLS

- JAVASCRIPT, NODE.js, EXPRESS.js, MERN stack (MongoDB, Express, React, Node), SQL, TAILWIND, BOOTSTRAP, GIT, HEROKU.

PROJECTS

Project name**: Job Hive**

GitHub link: **https://github.com/nreece6/project-2-job-board**

Livedemo: **https://protected-refuge-18602-b5474f6525e3.herokuapp.com/**

- Job Hive is a job board web app designed to connect employees to employers. Job seekers can register and look up different jobs and apply by uploading their resume.

  - handled the logic for job favorite, did most of UI/UX, did work with job pages pagination and API routes.

  - Technologies used: Node.js, Express.js, Tailwind CSS, Handlebars.js, Sequelize, Google cloud Storage

Project name: **ACIFNA-MN**

GitHub link: **https://github.com/miskerbirhanucse/acifna**

Live demo: **https://abrand93.github.io/Marvel-world**

- ACIFNA-MN is a church website which provides information to new users, previews new events or announcements and also incorporates a donation page to give to the church.

  - Designed the front-end using Tailwind and Flowbite templates

  - Technologies used: Java Script, Tailwind CSS, Express.js, Seqeulize, Stripe

RELEVANT EXPERIENCE

Title – IT Assistant work study
01/2020 – 06/2020

Company Name – Saint Paul College   Saint Paul, MN

As an IT Assistant in a work-study program, I provided technical support to faculty and students, troubleshooting hardware and software issues. I also contributed to maintaining the college's IT infrastructure, including network maintenance and equipment inventory.

ADDITIONAL EXPERIENCE

- Ability to learn new technologies quickly and adapt to a working environment.
- Acquired hands-on experience of developing full-stack web applications.
- Collaborated on team projects using version control like GitHub.
- Good interpersonal communication and problem solving skills.

EDUCATION

Certificate: University of Minnesota Boot camps, Saint Paul, MN
    08/17/2023

- A 24 week intensive program focused on gaining hands-on experience in full-stack web development

Associates Degree: **Saint Paul College**, Saint Paul, MN: Computer Science

- Studied programming languages (Python, Java) and data structures and other computer science courses.   01/2020 - current
